-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3653

1) Upon a further consideration of the claims, a new restriction requirement is set forth as follows:

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12,21-24 are***, drawn to *subcombination of a dispenser having an access opening (claim 1) or the one aperture (claim 6) or the opening (claim 21)**, classified in class *221**, subclass **63*.
- II. Claims 13-20 and 25-29 are***, drawn to *the subcombination of a container having essentially means to assemble front to rear panels, without the recitation of an access opening to dispense an article. Claim 13 recites the funnel-shaped aperture for the 'insertion' of bags and is not for access or the dispensing of the bags**, classified in class *220**, subclass *600**.

2. Inventions of Group I and *of Group II** are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention *of Group II** has separate utility such as *the means to assemble panels together or a housing having an aperture for the insertion of articles could be applied to numerous construction of receptacles, without the need to dispense or withdraw the articles therefrom, as without the need of an access opening.. **. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth W Noland whose telephone number is (571) 272-6941. The examiner can normally be reached on Monday-Thursday ,each week.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Donald Walsh can be reached on (703) 306-4173. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
